Trails, Trails and More Trails!!

Access to good trails has been proven to be very important to communities and its quality of life. We at the County Parks Department strive to provide access to all types of trail that will be safe and enjoyable to our visitors and residents. Several years ago LaPorte County Parks was granted funds to extend Lincoln Memorial Trail at Bluhm County Park near Westville. While this extension along 350 South is only about ¼ of a mile, it was an important section because it connected to another trail that runs along Hwy 421. It is now possible for the people of Westville and New Durham Estates to visit our park without jumping in a vehicle to get there!

We are also in the beginning stages of improving approximately ½ mile of trail in Luhr County Park. This addition to the current trail system at Luhr will provide accessible paved trail that will be used for hiking, biking and running. It also will be utilized to access another 15 acres of wetland/prairie habitat that will be donated to the park in this process. Educational opportunities abound with this new addition to the park and our nature center staff will surely take advantage of this new opportunity and habitat type at Luhr. With this project we will also be adding a restroom, picnic shelter and parking lot to the park as well.

So, with the addition of these two trails, the addition of the floating bridge at Red Mill and the rehab of the Steelheaders Boardwalk at Creek Ridge, 2018 has been a very busy year for our small department in the area of trail expansion and improvement. Much of the funding for these projects and improvements came from the LaPorte County Park Foundation. Without the support from many of the people who love our parks and facilities these projects would not be possible. Please continue to enjoy our parks and trails and when you do realize that without visitor support many of them would not be possible!
